JULY

Featured Part

We've Got You Covered

For July's Featured Part we are showing off this aluminum cover that has been yellow chromated. Made from 1/8" thick aluminum, this part travels from laser cutting, to the forming department, makes a stop to have hardware installed, and then lands in our welding department. The corners and all bend reliefs are welded closed, and then polished to a cosmetic radius. The work done in our grinding room matches the bend radii of the flanges so well that it's hard to tell it was welded at all. If you have cosmetic concerns about any of your parts, call us today, our polishing and finish grinding is second to none!

Did You Know?:

Greyhounds are universal blood donors. Most greyhounds have a blood type that can be given to almost any other breed of dog on the planet.

Problem

Here's the challenge - figure out how much money you would have if you took one fifth of one half of one seventh of 70 cents.

* Please be sure to check our website for answers to all previous months Problems and Quizzes! Go to www.metalwork.com and click on Problem of the Month link.

Quote:

"In three words I can sum up everything I've learned about life: it goes on."

~ Robert Frost ~

Complete Assembly, Sheet Metal, Machined and Welded Components.

- >ISO 9001 certified Quality Management System.
- >Certified Welding to MIL_STD_1595a for processDTW Group 1b, 1a.
- >100% in-process inspection.
- >Certified inspection reports.

All CAD Formats:

Solidworks (sldprt, sldasm), AutoCAD (dwg, dxf), Inventor, Pro/E, CATIA 4/5, Unigraphics, Parasolid, ACIS SAT, iges, step, ckd, prt, stl
