Featured Part

Our Commitment to Our Customers

It's been a few months since you've seen a Featured Part flyer from Compucraft, but that doesn't mean we haven't been busy. Since the COVID-19 pandemic began disrupting daily life in March, we haven't missed a step. We have worked hard to comply with all local and state regulations to keep our employees safe while we continue to offer our essential services to the customer base we've built over the last 35 years. We hope you have been staying healthy and safe too, and we want to assure you that we are still committed to the highest level of service we can provide to our customers.

Fun Fact:

There are no wind on the equator. The trade winds coming from the south and the north meet near the equator. These converging trade winds produce general upward winds as they are heated, so there are no steady surface winds. This area of calm is called the doldrums.

Problem:

Which One is the Odd Letter in the Group.

*Please be sure to check our NEW website for answers to all previous months Problems and Quizzes! Go to www.metalwork.com and click on FEATURED PART page.

Quote:

"Try not to become a man of success. Rather become a man of value."

~ Albert Einstein ~
