Quiz of the Month

The year 1685 was unusually productive of great composers. Which of the following was not born in that year?

- Johann Sebastian Bach
- George Frederick Handel
- Domenico Scarlatti
- Georg Philipp Telemann

Problem of the Month

A perfect cube that measured one foot on a side has been expanded such that the cube now has twice the surface area that it originally had. Find the volume of this larger cube.

October's Answers

QUIZ: "The Beatles" is the proper name of the Beatles album commonly referred to as the "White Album."

PROBLEM: If $ABCD \times 4 = DCBA$, then $A=2, B=1, C=7, D=8$. Since A is multiplied by 4, it must be an even number. This is the best place to start.

Quote of the month: "Courage is the first of human qualities because it is the quality that guarantees the others." — Aristotle
