

Sheet Metal ◊ Machining ◊ Welding & Brazing ◊ Laser Cutting ◊
 Enclosures ◊ Polishing

Shameless Self Promotion

If you were at the annual Design2Part show this year you would surely recognize this picture. Of the hundreds of vendors displaying their capabilities, no one did it with more style than Compucraft. This display was designed and constructed in-house, and exemplifies many of our capabilities. Tube bending, laser and turret cutting, forming, welding, and polishing were all required to make this stainless steel and aluminum masterpiece. Upon closer inspection you'll see that the glass shelves are showing off a small sampling of the sheetmetal and machined parts we've made for our customers in the Pharmaceutical, Medical, Military, and Semiconductor industries. Send in your inquiry today and become one of the many companies that Compucraft is proud to do business with.

Quote:

A mother is the truest friend we have, when trials heavy and sudden, fall upon us; when adversity takes the place of prosperity; when friends who rejoice with us in our sunshine desert us; when trouble thickens around us, still will she cling to us, and endeavor by her kind precepts and counsels to dissipate the clouds of darkness, and cause peace to return to our hearts.

~ Washington Irving

Brain Teaser:

Which two states are tied for highest number of other states bordering them? What is this number?

Problem:

The square ABCD touches the circle at 4 points. The length of the side of the square is 2 cm. Find the area of the shaded region.
