

Part of the Month
September

Problem:
One snowy night, Sherlock Holmes was in his house sitting by a fire. All of a sudden a snowball came crashing through his window, breaking it. Holmes got up and looked out the window just in time to see three neighborhood kids who were brothers run around a corner. Their names were John Crimson, Mark Crimson and Paul Crimson. The next day Holmes got a note on his door that read "?? Crimson. He broke your window." Which of the three Crimson brothers should Sherlock Holmes question about the incident?

Sheetmetal + Machining = Our Specialty
The rugged housing shown here is used to protect a computer from the harsh field conditions where it is used. The front bezel and handles are machined items. The rest of the housing is sheetmetal. The handles are welded to the front bezel, and the bezel is then aluminum dip brazed to the housing. After these processes comes chromating, hardware installation, painting, and gasket installation. Our ISO 9001 Quality Management System helps ensure parts are shipped on time and in spec. Our experienced and dedicated employees make it all possible.

Quiz:
What is the time of day called immediately following sunset?
