**March**

**One Classy Part of the Month**

OK, so it's March and your girlfriend is still mad at you because all you got her for Valentine's Day was a new cat litter box for her cat. Why not put all that behind you by heading out to your nearest upscale department store and locating the mirror-polished stainless steel Michael Kors logo shown above. After laser cutting, forming, and welding, the above logo goes to our grinding room to have the welds polished back to a mirror finish. Then the custom cut plastic inlays are installed and the parts are sent to our customer ready to be backlit and installed in a boutique near you. Once you have located the MK logo, your next instruction is to purchase one of the fine handbags, have it gift wrapped, and go show your belle that you are capable of buying her a romantic gift!
