JULY
Part of the Month

A Celebration...

of our country's birthday seems a fitting place to start. This month's part is a weldment made of stainless steel plate. Decades of experience from our master craftsmen went into the making of the part for our customer. Compucraft takes pride in the fact that this part is "Made in the USA". Just about every department in our facility had a hand in fabricating this part. From the laser precisely cutting the parts to final inspection, every detail is checked before shipping the product to the customer. If your needs are large or small, send them all to Compucraft for a speedy quote. And a happy birthday to our United States of America!

Quiz:

In 1776, what momentous event forever impacted how summer would taste in America?

- The hot dog was invented and served at the Boston Tea Party.
- George Washington modeled the first American swimwear line while crossing the Delaware.
- The first ice cream parlor opened in New York City
- The Beach Boys recorded their first hit.

Problem:

A boy rode his new bike to a nearby park. Upon reaching the park, he saw that there were a total of 11 bicycles and tricycles. If the total number of wheels was 26, how many tricycles were there?
